Product Rationalization – AMERCOAT® 71 phase out

Dear valued customer,

We are writing to advise you of the phase out of AMERCOAT 71 in EMEA.

AMERCOAT 71 is two-component polyamide-cured epoxy primer. We have a number of suitable two-component polyamide-cured epoxy primer in our range that offer significant benefits over AMERCOAT 71 and can be used as replacement in most application.

Should you have questions about the most suitable replacement for AMERCOAT 71 in your particular field of application, please do not hesitate to contact your local technical support or sales representative, as they will be more than happy to help you with tailor made advice.

Phase out of AMERCOAT 71 will effective immediately. The product won't be available anymore after the leftover stocks are depleted.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Olga', written over a faint rectangular box.

Olga Aikasheva
